REVIEW REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
FRMO Corporation and Subsidiaries
White Plains, New York

We have reviewed the accompanying consolidated balance sheet of FRMO Corporation and Subsidiaries (the "Company") as of November 30, 2016, the related consolidated statements of income and comprehensive income (loss) for the three months and six months ended November 30, 2016 and 2015, the consolidated statement of stockholders' equity for the six months ended November 30, 2016, and the consolidated statements of cash flows for the six months ended November 30, 2016 and 2015. These consolidated financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States) and in accordance with auditing standards generally accepted in the United States of America. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States) and in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim consolidated financial statements as of November 30, 2016 and for the three months and six months ended November 30, 2016 and 2015 referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards of the Public Company Accounting Oversight Board (United States) and in accordance with auditing standards generally accepted in the United States of America, the consolidated balance sheet of FRMO Corporation and Subsidiaries as of May 31, 2016 (presented herein) and in our report dated August 9, 2016, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of May 31, 2016 is fairly stated, in all material respects, in relation to the consolidated financial statements from which it has been derived.

NOTE 1 - Nature of Business

FRMO Corporation ("FRMO") was incorporated in 1993 under the laws of the State of Delaware. In January 2001, FRMO spun off its operations in a transaction accounted for as a reverse pooling of interests.

Management is experienced in the analysis of public and private companies and securities within a framework of identifying investment strategies and techniques that reduce risk. The Company endeavors to identify and participate in operating assets, particularly in the early stages of the expression of their ultimate value, in ways that are calculated to increase the value of the stockholders' interest in FRMO. Such assets are expected to include, but are not limited to, those whose values and earnings are based on intellectual capital. Of the many varieties of capital upon which investors have earned returns, ranging from real estate to silicon, perhaps the highest returns on capital have been earned on intellectual capital. It is the goal of FRMO to maximize its return on this form of asset. The identification of any business opportunities will follow the process employed by Horizon Kinetics, LLC ("Horizon" or "Horizon Kinetics"), to select and evaluate investment opportunities and strategies. Horizon was co-founded by Murray Stahl and Steven Bregman, officers and principal stockholders of the Company. It is an investment advisory and independent research firm, the research activities serving primarily institutional investors. Horizon provides in-depth analysis of information-poor, under-researched companies and strategies to identify the complex or overlooked situations that can offer an advantage to the investor.

Until April 30, 2011, the Company owned an 8.44% interest in Kinetics Advisers, LLC ("Kinetics Advisers"). Effective May 1, 2011, the members of Kinetics Advisers contributed all of their membership interests in Kinetics Advisers to Horizon Kinetics and, in exchange, Kinetics Advisers members received certain membership interests of Horizon Kinetics and Kinetics Advisers became a wholly-owned subsidiary of Horizon Kinetics (the "Exchange"). As a result of the Exchange, the Company exchanged its original 8.44% membership interest in Kinetics Advisers for a 0.47% membership interest in Horizon Kinetics and a receivable of approximately \$4,814,000, which represented the Company's proportionate shares of fees that were earned and payable to Kinetics Advisers prior to the Exchange (see Note 3). On August 15, 2012, the Company transferred an interest in a revenue stream to Horizon Kinetics in exchange for A-1 units of Horizon Kinetics, increasing the Company's membership interest in Horizon Kinetics to 0.86%. On April 16, 2013, the Company entered into an agreement with Horizon Kinetics to exchange, on or before May 31, 2013, certain privately held units of Horizon Kinetics for common shares of the Company based upon pre-determined prices of each. On May 31, 2013, the Company issued 2,387,715 shares of its common stock to the individual Horizon Kinetics unit sellers in exchange for an additional 4.09% interest in Horizon Kinetics. As a result of the Exchange and subsequent transactions discussed above, FRMO increased its interest in Horizon Kinetics from 0.86% to 4.95% (see Note 3).

Effective June 1, 2013, the Company earns substantially all of its advisory fees from Horizon Kinetics as a result of an amendment of its product-specific revenue interests (see Note 3). For the three months and six months ended November 30, 2016 and 2015, fees earned by the Company include fees earned from Horizon Kinetics and other fees derived from assets managed by other parties based on the research of Horizon Kinetics.

NOTE 1 - Nature of Business (cont.)

The other programs significant to FRMO's fees are as follows:

- (i) **Consulting fees** - The Company receives consulting fees pursuant to an agreement with Santa Monica Partners, LP, whose manager is a director and stockholder of the Company.

 - (ii) **Participation agreement** - In November 2010, the Company invested in a participation agreement with Horizon. The agreement provided that the Company pay to Horizon \$750,473 to fund Horizon's November 8, 2010 capital call in Croupier Prive Private Equity Fund, LP ("Prive") for the purchase by Croupier Prive Private Equity Fund Master Fund, LP ("Master") of four specified investments in consideration of Horizon's agreement that the Company shall have the right to participate in 50% of Horizon's share of any profit in each of the investments while bearing only 10% of any loss on the sale of each of the investments through the end of Prive's extended term on July 31, 2017. On April 12, 2013, the Company received \$664,277 as a partial distribution. As of November 30, 2016 and May 31, 2016, the balance of the assets to be distributed by Horizon was \$138,357 and is included in "Participation receivable" in the consolidated balance sheets.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements include the accounts of FRMO and its controlled subsidiaries (collectively referred to as the "Company"). Noncontrolling interests on the consolidated financial statements represent the portion of a subsidiary in which the Company does not have direct equity ownership. The Company maintains its corporate office in White Plains, New York.

Principles of Consolidation

The consolidated financial statements represent the consolidation of the accounts of FRMO and its subsidiaries in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). All intercompany accounts and transactions have been eliminated in consolidation. Investments in unconsolidated companies (generally 20 to 50 percent ownership), in which the Company has the ability to exercise significant influence but neither has a controlling interest nor is the primary beneficiary, are accounted for under the equity method of accounting. Investments in entities in which the Company does not have the ability to exercise significant influence are accounted for under the cost method of accounting. Under certain criteria indicated in Accounting Standards Codification ("ASC") 810, *Consolidation*, a partially-owned affiliate would be consolidated when it has less than a 50% ownership if the Company was the primary beneficiary of that entity.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. At November 30, 2016 and May 31, 2016, the Company had balances in excess of federally insured limits on deposit with financial institutions. At November 30, 2016, the Company had: (1) three accounts with balances of approximately \$11,452,000, \$35,837,000 and \$1,050,000 at one financial institution, and (2) one account with a balance of approximately \$1,278,000 at another financial institution. The Company has not experienced any losses in such accounts, and management believes that it is not exposed to any significant credit risk on cash and cash equivalents.

In the normal course of business, substantially all of the Company's securities transactions, money balances, and security positions are transacted with one broker. The Company is subjected to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Company's management monitors the financial condition of such broker and does not anticipate any losses from such counterparty.

Investment Valuation

The Company accounts for its investments in accordance with "*Investments - Debt and Equity Securities*", which requires that fixed-maturity and equity securities that have readily determined fair values be segregated into categories based upon the Company's intention for those securities. Accordingly, the Company has classified its equity securities as available-for-sale and its investment in a participation agreement as held to maturity. The Company may sell its available-for-sale securities in response to changes in interest rates, risk/reward characteristics, liquidity needs, or other factors.

Equity securities are reported at their estimated fair values based on quoted market prices or a recognized pricing service, with unrealized gains and losses, net of tax effects, reported as a separate component of comprehensive income in stockholders' equity. Realized gains and losses are determined on the specific identification method.

Investments that the Company has the specific intent and ability to hold until maturity are carried at cost.

The estimated fair values of financial instruments are determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is required in interpreting market data to develop the estimates of fair value. Accordingly, the estimates, when presented herein, are not necessarily indicative of the amounts that the Company could realize in a sale. The Company will record an impairment charge if and when it believes any investment has experienced a decline that is other than temporary.

As of November 30, 2016 and May 31, 2016, investments in limited partnerships and limited liability companies are valued using data inputs from September 30, 2016 and March 31, 2016, respectively, the dates of the most current available information.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investments in Unconsolidated Entities

The Company evaluates investments in other entities for consolidation. The Company considers the percentage interest in the joint venture, evaluation of control and whether a variable interest entity exists when determining if the investment qualifies for consolidation. Investments in limited liability companies that have separate ownership accounts for each investor greater than three to five percent are accounted for under the equity method of accounting.

Under the equity method of accounting, the investment is recorded initially at cost, and subsequently adjusted for all realized income (loss) and all allocated shares of pass-through income or loss items ("Net Income"). The Net Income of each investor will be allocated in accordance with the provisions of the operating agreement of the entity. The allocation provisions in these agreements may differ from the ownership interest held by each investor. These items are reported as a single line item in the consolidated statements of income as income and comprehensive income (loss) from investment partnerships and limited liability companies. The unrealized gains and losses of these entities are also reflected in the investment and are included in other comprehensive income. Under the cost method of accounting, the investment is recorded initially at cost, and subsequently adjusted for cash contributions and distributions resulting from any capital events.

On a quarterly basis, the Company assesses whether the value of its investments in unconsolidated entities has been impaired. An investment is impaired only if management's estimate of the fair value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. The ultimate realization of the Company's investment in partially owned entities is dependent on a number of factors including the performance of that entity and market conditions. If the Company determines that a decline in the value of a partially owned entity is other than temporary, it will record an impairment charge.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Accounts Receivable and Allowance for Doubtful Accounts

In the normal course of business, the Company provides unsecured credit to customers, performs credit evaluations of these customers, and maintains reserves for potential credit losses. In determining the amount of allowance for doubtful accounts, management considers historical credit losses, the past due status of receivables, payment history, and other customer-specific information. The past due status of a receivable is based on its contractual terms. Expected credit losses are recorded as an allowance for doubtful accounts. Receivables are written off when management determines they are uncollectible. An allowance for doubtful accounts is not provided as of November 30, 2016 and May 31, 2016 since, in the opinion of management, all of its accounts are deemed collectible.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Securities Sold, not yet purchased

Securities sold, not yet purchased, or securities sold short, represent obligations of the Company to deliver the specified security, and thereby create a liability to repurchase the security in the market at then prevailing prices. Securities sold, not yet purchased are recorded as a liability at fair value.

Other Comprehensive Income

Other comprehensive income refers to revenues, expenses, gains, and losses net of income taxes that, under U.S. GAAP, are included in comprehensive income but are excluded from net income as these amounts are recorded directly as an adjustment to stockholders' equity and consist primarily of unrealized gains (losses) on available for sale investments.

Revenue Recognition

The Company primarily generates revenue through advisory and consulting fees. The accrual method of accounting is used to record fee income, which is recognized when earned.

Security transactions are recorded based on a trade date. Dividend income is recognized on the ex-dividend date, and interest income is recognized on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective securities. Realized gains and losses from securities transactions are recorded on a specific identification basis.

Revenue from the Company's interest in Horizon Kinetics' gross revenues is earned primarily on a month-by-month basis. Beginning with the quarter ended February 28, 2014, and each year thereafter, the revenue recorded for the quarter ended February 28/29 will include the Company's share of annual incentive fees earned by Horizon Kinetics, if any.

Revenue (loss) from investment partnerships is earned based upon FRMO's allocated share of each partnership's pass-through of income and expenses to its partners on a calendar year basis.

Research

Research expenditures, consisting of investment research, are expensed as incurred.

Stock-based Compensation

The Company records compensation expense associated with stock options and other equity-based compensation in accordance with guidance established by U.S. GAAP. Stock option compensation expense for the three months and six months ended November 30, 2016 and 2015 is the estimated fair value of options granted amortized on a straight-line basis over the requisite service period for the entire portion of the award less an estimate for anticipated forfeitures.

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Income Taxes

The Company files a consolidated federal income tax return with its wholly-owned subsidiary. Material differences between the financial reporting and the tax reporting of the Company's revenue, assets, and liabilities are included in deferred tax assets or liabilities. The income tax provisions and liability for income taxes are based on enacted tax laws and statutory tax rates applicable to the respective periods.

Deferred tax is recognized using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for differences relating to investments in subsidiaries and jointly controlled entities to the extent that they probably will not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Uncertain Tax Positions

The Company follows the relevant provisions of U.S. GAAP concerning uncertainties in income taxes, which clarifies the accounting for uncertainty in tax positions and requires that the Company recognize in its consolidated financial statements the impact of an uncertain tax position, if that position has a more-likely-than-not chance of not being sustained on audit, based on the technical merits of that position. All related interest and penalties would be expensed as incurred. Tax returns for the years ended May 31, 2013 and forward are still subject to examination. The Company has evaluated its tax position and determined that no provision for uncertainty in income taxes is necessary as of November 30, 2016 and May 31, 2016.

Subsequent Events

The Company has evaluated all subsequent events from the date of the consolidated balance sheets through January 12, 2017, which represents the date these consolidated financial statements are available to be issued.

NOTE 3 - Exchange of Product-Specific Revenue Interests

By agreement dated April 16, 2013, the Company amended the terms of its product-specific revenue interests in the following products managed by Horizon Kinetics and its subsidiaries: (i) a mutual fund, (ii) two private investment funds, (iii) a consultative relationship with an institutional investor and, (iv) an institutional separate account. The transaction was consummated at the close of business on May 31, 2013 and commenced on June 1, 2013. FRMO now receives a single revenue interest (the "Revenue Interest") equal to 4.199% of the gross revenues of Horizon Kinetics. On May 31, 2013, the 4.199% Revenue Interest had an estimated fair value of \$10,200,000 as determined by an independent valuation and is shown as "Participation in Horizon Kinetics LLC revenue stream" in the consolidated balance sheets as of November 30, 2016 and May 31, 2016. Revenue Interest from this transaction is recorded as "Consultancy and advisory fees" in the consolidated statements of income and comprehensive income (loss) for the three months and six months ended November 30, 2016 and 2015 and represents substantially all of the consulting and advisory fees for the three months and six months ended November 30, 2016 and 2015.

As a result of this transaction, the Company realized a gain of approximately \$10,057,000 in 2013. Income taxes of approximately \$4,395,000 on the gain are deferred pursuant to Section 1031 of the Internal Revenue Code relating to "like-kind exchanges" and are included in "Deferred Tax Liability - non-current" in the consolidated balance sheets as of November 30, 2016 and May 31, 2016.

Noncontrolling Interests

Horizon Kinetics Hard Assets LLC

Horizon Kinetics Hard Assets LLC ("HKHA") is a New York limited liability company formed by Horizon, and certain officers, principal stockholders and directors of the Company for the purpose of investing in companies that own 'hard assets' with intrinsic value such as commodities including oil, natural gas, precious metals as well as land assets including industrial and commercial real estate, and other similar assets.

From November 1, 2015 through November 1, 2016, the Company acquired an interest in HKHA by contributing securities with a fair market value of \$718,590. As of November 30, 2016 and May 31, 2016 the Company holds a 9.23% and 5.08% interest, respectively, in HKHA.

Due to the common control and ownership between HKHA and the Company's principal stockholders and directors, HKHA has been consolidated within the Company's financial statements in accordance with the Company's consolidation policy. The noncontrolling interest of 90.77% and 94.92% in HKHA has been eliminated as of November 30, 2016 and May 31, 2016, respectively.

Securities Sold, not yet purchased (liability)

Securities sold, not yet purchased, or securities sold short, consist of equity securities that the Company has borrowed and sold. The Company is required to "cover" its short sales in the future by purchasing the security at prevailing market prices and delivering it to the counterparty from which it borrowed the security. The Company is exposed to loss in the event that the price at which a security may have to be purchased to cover a short sale exceeds the price at which the borrowed security was sold short. Securities sold, not yet purchased are recorded as a liability at fair value. A gain, limited to the price at which the Company sold the investment short, or a loss, unlimited in amount, will be recognized upon the cover of the short sale.

NOTE 5 - Fair Value Measurements

The Company follows "*Fair Value Measurements*" for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The following tables present information about the Company's assets and liabilities that are measured at fair value on a recurring basis as of November 30, 2016 and May 31, 2016, and indicates the fair value hierarchy of the valuation techniques the Company utilized to determine such fair values. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities. Fair values determined by Level 2 inputs utilize data points that are observable such as quoted prices, interest rates, and yield curves, and quoted prices for identical or similar instruments in markets that are not active. Fair values determined by Level 3 inputs are unobservable data points for the asset or liability, and includes situations where there is little, if any, market activity for the asset or liability. The Company does not have Level 3 assets or liabilities:

During the year ended May 31, 2016, the Company established nexus in New York City and calculated an estimate of income taxes and accrued interest for the years ended May 31, 2013, 2014 and 2015. In September 2016, the Company filed the required tax returns which resulted in the actual income tax and accrued interest being \$168,725 less than the estimate as of May 31, 2016. The net amount of this adjustment after federal tax was \$111,358. The net adjustment reduced the provision for income taxes by \$111,358 for the six months ended November 30, 2016, and reduced the effective tax rate by 8.9%.

NOTE 7 - Net Income Per Common Share and Per Common Share Equivalent

Basic and diluted earnings per common share is calculated by dividing net income allocated to common stock by the weighted average common shares outstanding during the period. The weighted average number of shares of common stock used in the calculation of diluted earnings per share is adjusted for the dilutive effects of potential common shares including the assumed exercise of vested stock options based on the treasury stock method and the assumed conversion of convertible preferred stock. Assumed exercise or conversion of potential common shares is only when the weighted average market price for the period exceeds the exercise price and the conversion price, and that the entity records earnings from continuing operations, as the inclusion of such adjustments would otherwise be anti-dilutive to earnings per share from continuing operations.

Potential common shares consist of the following for the six months ended November 30:

	2016	2015
Stock Options	111,626	246,138

As of November 30, 2016 and May, 31, 2016, there were 87,626 and 79,626, respectively vested options with an exercise price below the weighted average market price of the Company's common stock during the period.

The reconciliation of the weighted average number of common shares used in the calculation of basic and diluted earnings per common share follows for the three months and six months ended November 30:

	Three Months Ended November 30,		Six Months Ended November 30,	
	2016	2015	2016	2015
	(Unaudited)		(Unaudited)	
Weighted Average Common Shares Outstanding	43,953,155	43,733,375	43,953,155	43,730,751
Effect of Dilutive Securities, common share equivalents:				
Exercise of stock options	-	159,710	46,537	163,045
Dilutive Potential Common Share Equivalents	<u>43,953,155</u>	<u>43,893,085</u>	<u>43,999,692</u>	<u>43,893,796</u>

NOTE 8 - Noncash Compensation

Noncash compensation expense represents a notional salary allocation for the Company's senior officers, as required under U.S. GAAP. The officers of the Company are responsible for all of the Company's operations and have agreed to not draw any salaries for an indefinite period. Noncash compensation expense is recorded as an increase to additional paid-in capital.

NOTE 9 - Stockholders' Equity

Redeemable Preferred Stock

The number of authorized Series R preferred shares is 5,000 with a par value of \$.001 per share. These shares are each convertible to 1,000 shares of the Company's common stock at the option of either the Company or the holder. The Company is required to redeem them at \$1,000 per share upon the request of a holder. These shares have one vote per share on all matters that common stock can vote upon. Upon liquidation, there is preference to the extent of \$1,000 per share. No dividends may be paid on common stock unless a dividend per share of 1,000% of common stock dividends is paid on the preferred stock. There were no shares of preferred stock outstanding as of November 30, 2016 and May 31, 2016.

Stock Options

A summary of option activity as of November 30, 2016, and changes during the six months then ended, is as follows:

<i>Stock Options</i>	<u>Number of Shares</u>	<u>Weighted Average Exercise Price Per Share</u>	<u>Weighted Average Remaining Contractual Term</u>	<u>Aggregate Intrinsic Value</u>
Outstanding at June 1, 2016	103,626	\$ 3.40	3.87	\$ 260,742
Granted	8,000	4.80	6.86	4,800

Outstanding at November 30, 2016	<u>111,626</u>	<u>\$ 3.50</u>	<u>3.61</u>	<u>\$ 273,505</u>
Vested and Exercisable at November 30, 2016	<u>111,626</u>	<u>\$ 3.50</u>	<u>3.61</u>	<u>\$ 273,505</u>

All stock options were vested as of November 30, 2016 and 2015.

The aggregate intrinsic value of options outstanding and options exercisable at November 30, 2016 and 2015 is calculated as the difference between the exercise price of the underlying options and the market price of FRMO's common stock for the shares that had exercise prices that were lower than the \$5.40 and \$5.30 closing price of FRMO's common stock on November 30, 2016 and May 31, 2016, respectively.

As of November 30, 2016, there was no unrecognized compensation cost related to unvested options.
